POWERMILL DW-250

In a single step, the PowerMill DW-250 mills bulk goods that have hardened and formed lumps as large as 60cm, to a fine-flowing powder of up to 250 μm .

Its construction guarantees significant advantages and it can be used as a stand-alone unit for batch production or for continuous operation. The PowerMill DW-250 sets new standards in milling when it comes to modularity, user and maintenance friendliness.

SUITABLE FOR THE FOLLOWING INDUSTRIES:

Pharmaceutical

Battery

Chemical

Food

- Very broad spectrum of applications ranging from all types of dry to wet and sensitive products
- Optimum production flexibility due to the modular design
- The pivoting device allows a simple rotation of the milling head to allow easy access for changing the milling tools (rotor/sieve) or cleaning (Washing-in-Place (WIP), Cleaning-in-Place (CIP), Sterilization-in-Place (SIP) available as option)
- Large selection of milling tools (rotor/sieve), which can be easily and quickly changed
- Inlet funnel for blocks up to a size of 60 x 30 x 20 cm (for larger blocks on request)
- Simplification of the production process
- Modular, compact, small foot print
- High production safety guaranteed by the certified concept (ATEX Zones 0/20 for inside optionally available)

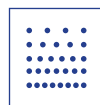

PROCESS CHARACTERISTICS

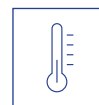

Particle size range
up to 250 μm

Throughput
up to 11000 kg/h*

Density
up to 2 kg/dm³

Product temperature range
-20°C to +60°C

* The flow rate depends on product characteristics and particle size

WORLDWIDE PRESENCE

FREWITT HEADQUARTERS

Frewitt manufacturer of machines Ltd.

Route du Coteau 7
